

HARNESS THE POWER OF LEADERSHIP

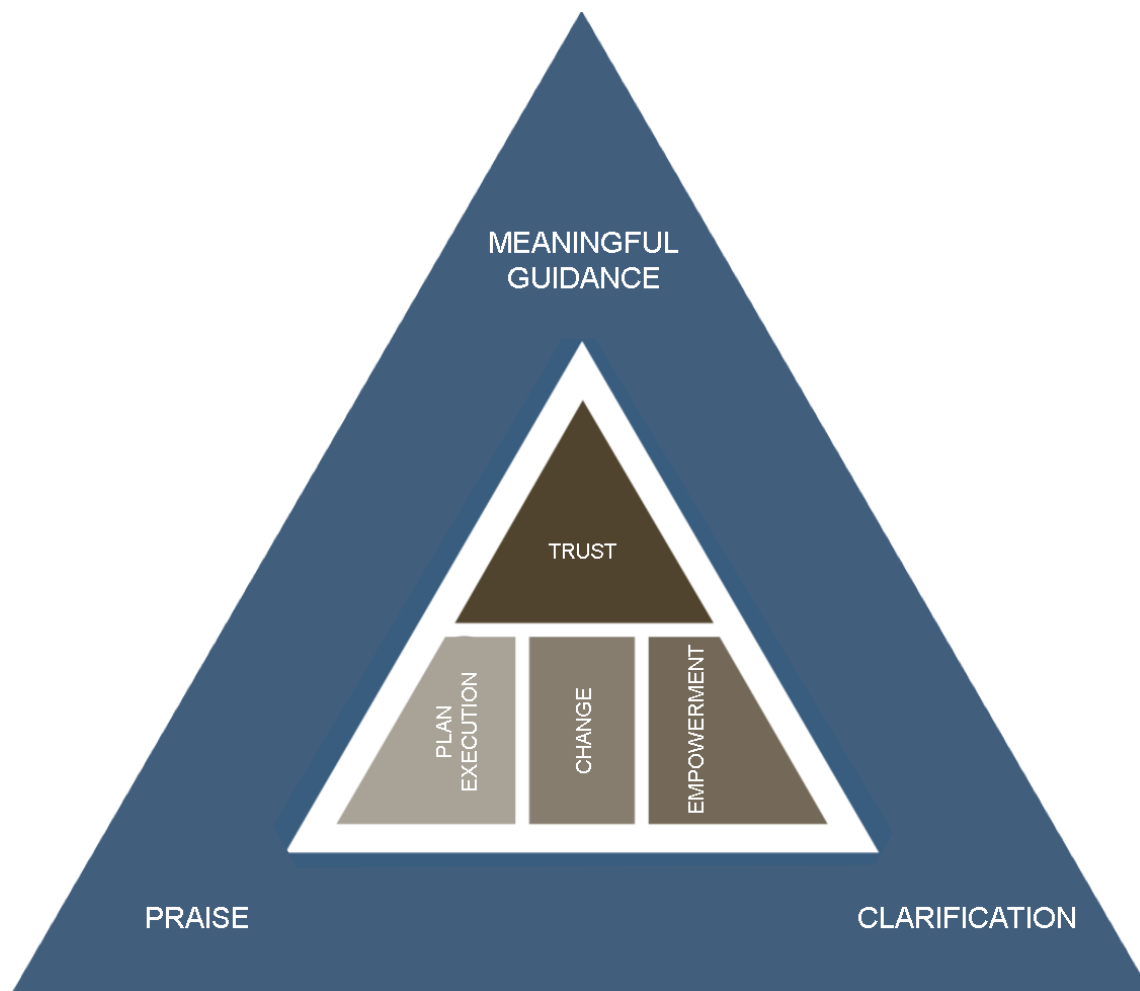

A unique learning experience.
With a dog.

Harness the Power

The Harness is the key to the working relationship between a client and his or her guide dog. As a working team, it is their link. It is how they connect, communicate and move forward, united, into the world.

As leaders, we can harness the power of leadership within our teams to connect, communicate and move forward.

Harness the Power of Leadership is a one-day, one-of-a-kind leadership workshop for new and mid-level managers and cross-functional or newly-formed teams.

Hosted on the Leader Dog campus, and based on the principles of a working relationship between a person and their Leader Dog where communication and clear direction mean the difference between life or death.

Attendees have the opportunity to put their leadership skills to practice during a blindfold walk with a Leader Dog.

The session is led by a Leader Dog client, paired with his or her Leader Dog and facilitated by a sighted and trained development facilitator.

Pricing: \$7,500 for up to 20 participants

Includes: Workbook for each attendee and a unique Leader Dog takeaway item with which to remember their experience and remind them of the working tools.
